3	0230	23d INF DIV, MAJ Garrott. G3 Ops, at 1900H, MAJ Johnson rec word fr the 11 <sup>th</sup> Bde that R/4 ARVN sighted boats on shore. A flaeship & 2xG/S were dispatched. Initially they reported sighting the boats that the ARVN's reported. This report was later changed to neg sightings. Nighthawk was also dispatched to this general area. He checked area w/neg results. Nighthawk then went to support A/1-20. While flying in support of A/1-20, Nighthawk obsr some old beached sampans. At this loc (BS769610) he eng 3xVC. Coastal "junks" were in the area, we req they go further S. We were given the freq & call sign of these junks. We had neg contact when we tried to beach these junks. XXIV Corps, G3, and later G3 Air req to know when commo0 was made with the junks. During this time, Nighthawk made several passes along the coastline. G3 Air offered "FLIR", we said no because there were no targets. TACP duty officer (at 0030H) came in and said "Basketball" was on station and had rec fire. They also wanted to know were the targets (unidentified boats) were. Both the 11 <sup>th</sup> Bde, and 23 INF DIV tried to identify a possible target. They were unable to get any contact w/these "junks." The only person they could contact on the freq the Corps gave us was the "Basketball." We talked w/Basketball using AF radios. He had commo w/two naval acft, but not w/the junks. Through Air Force channels, we rec info that the Coast Guard radar had picked up an unidentified vessel and several smaller vessels. TACP decided to launch FAC to work w/the Basketball. Tac air was on station. We contacted CORPS and advised them we did not have a target, did not know who reported sightings, & could not make commo w/the "Junks." We attempted to get CORPS to provide their source of info, no definite word was available. CORPS gave us a new call sign & freq to use to try to get commo w/the "Junks." We passed this to the 11 <sup>th</sup> Bde. We notified the 11 <sup>th</sup> & 198 <sup>th</sup> Bdes of the situation, and passed them all of the info we had regarding the incident.
